WWC Letter.Doc

NSW Surface Removal Specialists PL

Attention: Mr Steve Durling

Dear Steve,

It's been a number of weeks since your company performed blasting and painting operations on the Crane Barge Coomera under such a limited time frame and I felt I should put pen to paper.

I have been in the marine construction industry for over 20 years repairing and building various types of equipment with all the obstacles that go with it. I must say I was hesitant to contract your services as I have seen it all from a number of blasting and painting company's over the year's promises and no delivery just headaches and extra costs.

It was very surprising to see a professional blasting company so very well organised down to the last detail. All the boxes were ticked and the blast techs had a full understanding of the job and I could see they wanted to be there they where keen I haven't seen that in a long time. I look forward to using your services again, also the job went very well and the lack of mess was fantastic the EPA must love you guys well done.

If I can ever be of assistance let me know.

Yours faithfully
Waterway Constructions Pty Ltd

Rick Hay
Plant Manager
